G R O U P

Marketing company based in **Singapore.**

Focused on the promotion  
of technologies oriented to the  
**use of cryptocurrency.**

An aerial night view of a city skyline, likely Dubai, featuring several prominent skyscrapers illuminated with blue and white lights. The roads below show light trails from traffic, and the overall scene is dominated by a cool blue color palette.

# THE WORLD HAS CHANGED\_ 🔍

Technology has changed the world.

# Do you remember **the phone?**

In the beginning it used to cost a lot to make a phone call and it was not mobile or immobile.

Today, the phone is mobile and you can make calls anywhere in the world completely free of charge via apps through applications.

The largest lodging network is worth 31 billion dollars and it does **not own a single hotel.**

## Airbnb

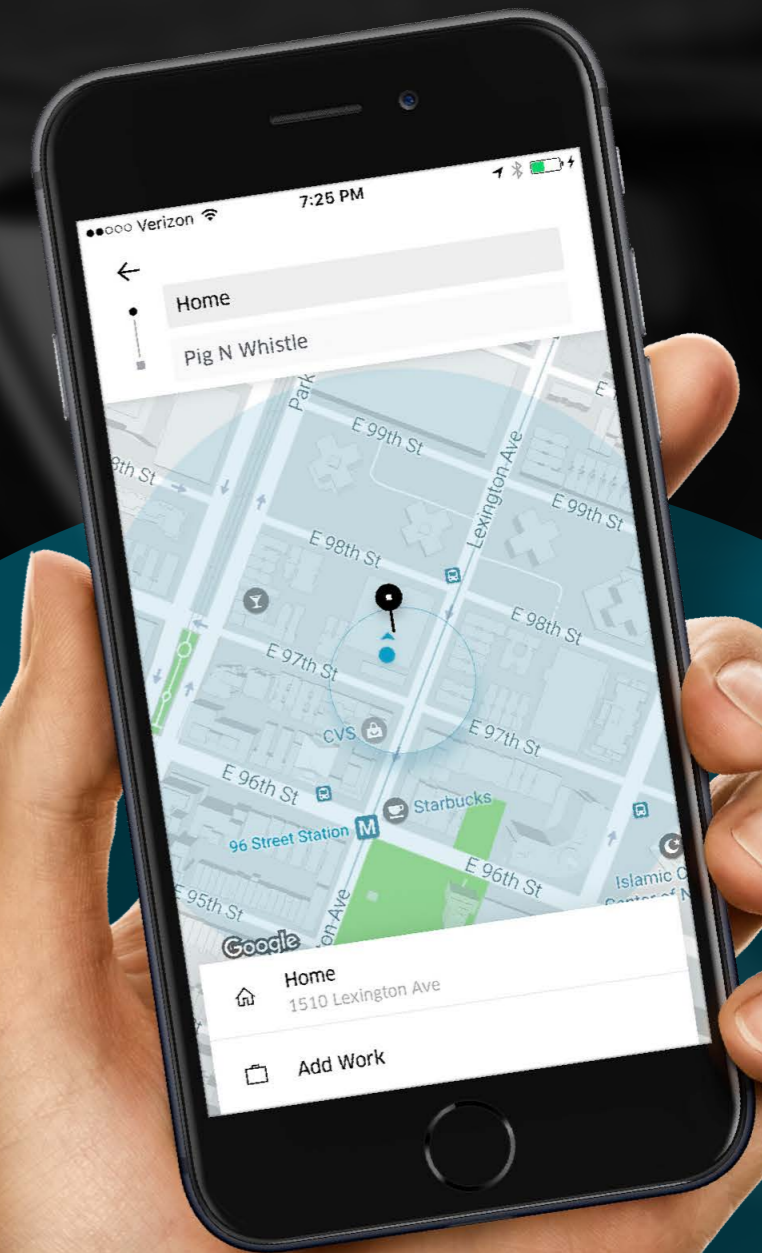

**500,000** ads  
**35,000** cities  
**192** countries

The largest transportation network in the world does **not even have a car.**

Evaluated at 18.2 billion dollars, **Uber**, an American multinational, revolutionized the private transport market.

Thousands of drivers, **zero cars.**

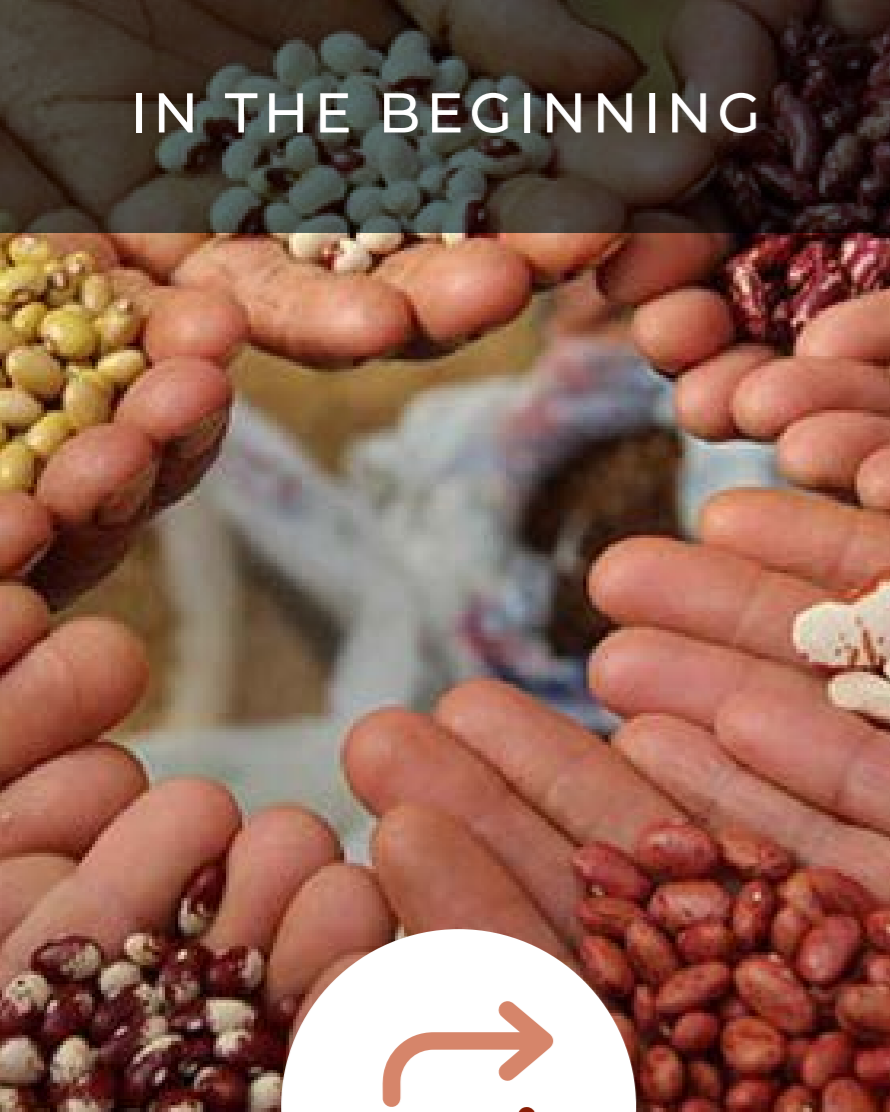

*We are living in an era of constant  
technological evolution.  
Even the money currency has changed.*

# *EVEN THE* **MONEY** *CHANGED*

IN THE BEGINNING

## Barter Trade

Fish, Animals,  
Labor,  
Delicacies.

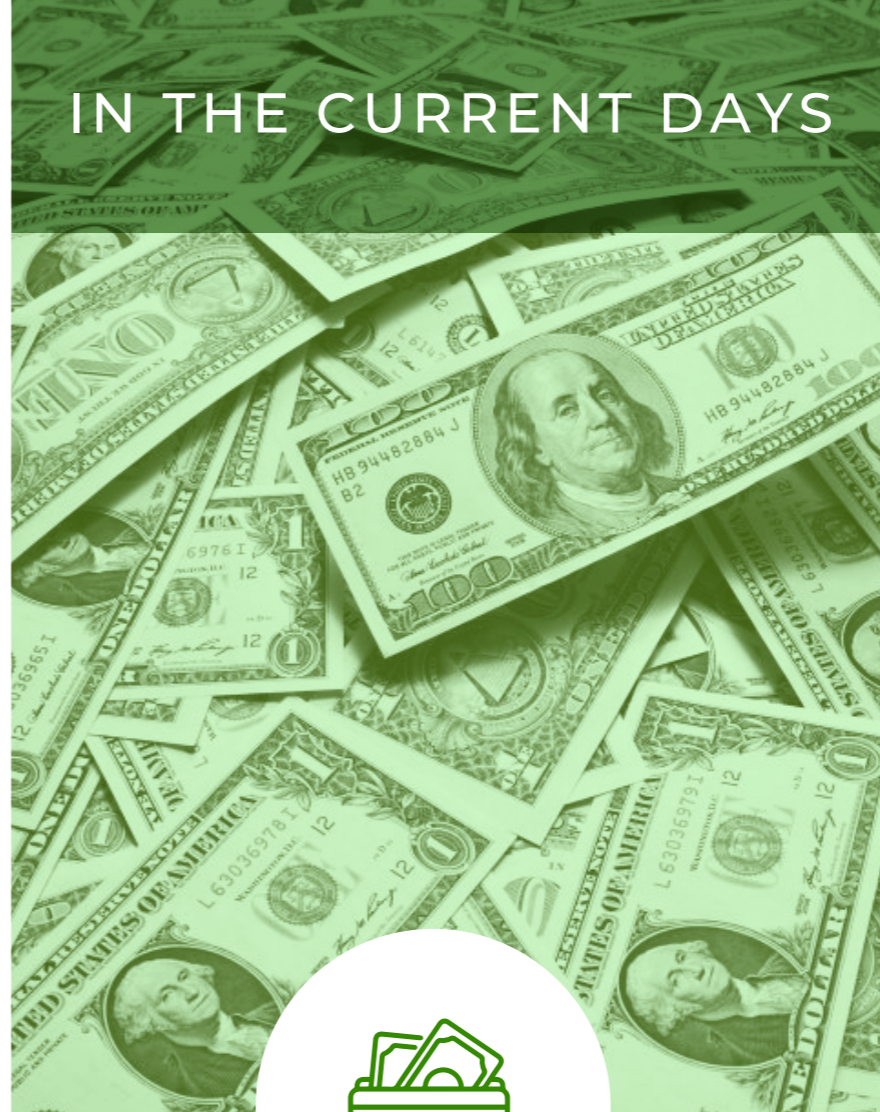

IN ANCIENT TIMES:

## Metals

Gold, Silver  
Iron, Copper and  
Precious stones.

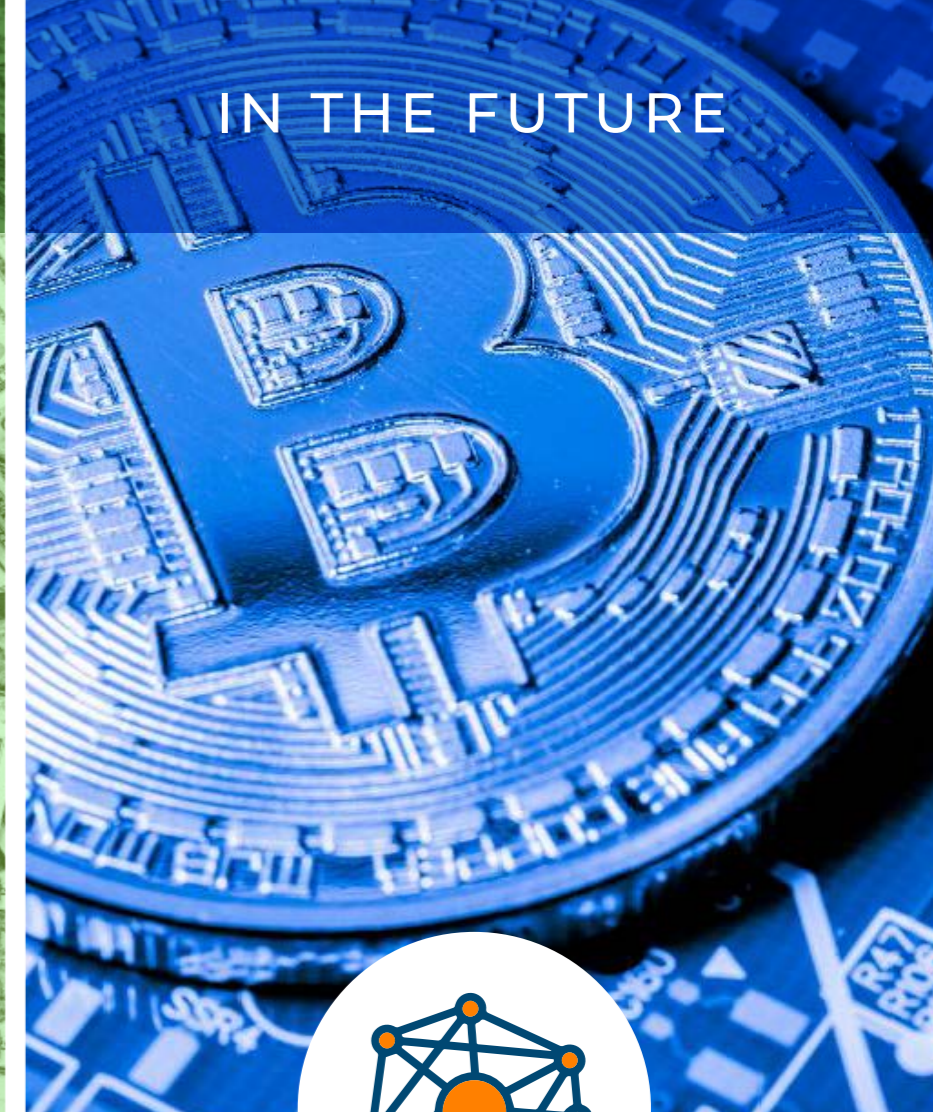

IN THE CURRENT DAYS

## Paper Currency

Dollar, Euro, Real,  
among other  
notes.

IN THE FUTURE

## Cripto currency

Bitcoin, Ethereum,  
Litecoin, Ripple and  
Bitcoin Cash.

THE FUTURE IS  
**TODAY**

Companies that use cryptocurrency:

-  Microsoft
-  Google
-  SUBWAY
-  overstock™
-  Expedia

# How the cryptocurrency story began:

## Bitcoin creation

Satoshi Nakamoto creates Bitcoin.

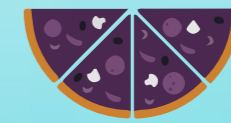

2008

## First transaction

On January 21, the first transaction with bitcoin was made.

2009

2010

10 000 ₿

## Pizza Day

On May 22, a programmer offered 10,000 BTC for anyone who could bring him two pizzas.

today, 10,000 BTC is worth **\$60,000,000.00**

## Ethereum

Ethereum is created and quickly becomes the second most value cryptomede in the world.

2015

Bitcoin is higher in value than gold.

2013

Bitcoin is higher in value than the dollar.

2011

Bitcoin debuts in the Chicago stock exchange and break the beats 18 thousand dollars.

2017

Japan recognizes Bitcoin officially as a means of payment.

2017

Exchange in cryptocurrency beats the profit of the largest German bank.

# Appreciation of cryptocoins

**Bitcoin** arise as the first cryptocurrency. It is not a centralized currency. It is maintained by a network of world computers.

Along with the volume growth, bitcoin currency automatically consequently becomes valued in the market.

**Ethereum** was created through online financing that occurred between July and August of 2014.

**Litecoin** is an Internet-based point-to-point currency that allows for instant payments at a cost close to zero by for any individual in the world.

Many people missed on the initial offer made by these and other cryptocurrencies, but now they are being given a new opportunity.

The background is a solid blue color. In the center, there is a 3D wireframe cube. At the top and bottom of the image, there are decorative elements consisting of multiple thin, wavy white lines that create a sense of motion or data flow. Small, light blue circular dots are scattered along these lines.
